

13 February 2019

ANNOUNCEMENT:

With the Kounis Group recently being awarded the contract for the supply of Low Voltage Motor Control Centre's, Transformer Kiosks and Switchrooms for the BHP Southflank Project we would like to announce our significant capacity expansion, organizational restructuring and key leadership changes within our Switchroom and Switchboard Division.

Today's announcement marks the reformation of our team and significant expansion of our Switchroom and Switchboard building facilities that will position the Kounis Group for continued success and growth.

This restructure will improve the;

- overall efficiency and capacity within Kounis Group
- quality of customer service and further the development of relationships with clients.

Our Vision

As a trusted and innovative business, to excel further as the trusted solution provider to our customers.

In 2016 Pindan Switchroom was acquired to compliment Kounis Groups', Sheetmetal, Cable Supports & Electrical Divisions. Building on this strategic acquisition the restructuring within the company will better serve our clients by providing a more comprehensive service.

Organizational Restructuring

Todd Meyer will assume the role of **Product Development, Design and Estimating Manager**. Todd's mission is to engage with clients from pre-award stage to formulate innovative designs by utilising all the Kounis divisions (products & services) to deliver the most cost-effective solutions. With over 15 years' experience within the Switchroom industry, he looks beyond the **SOW** to ensure client and overall project expectations are surpassed.

Rajendran Pusparaju former Kounis Switchroom project manager has been appointed as General Manager. Raj has a vast experience working with Multinational organisations within Australia and overseas. Raj will be heading the Switchroom division to the delivery of projects to ensure our commitment to customers are met. His varying roles and skills in a diverse range of industries including Utility, Automotive and Services equips him to fulfil the company's vision.

Kounis is excited with these changes and opportunities they will bring.
